07/20/2022 - 09:17	Dorothy Jill Nolin	County records	I found your website on a search and I'm trying to understand if you just do records for the state of Arizona. I live in Apache County and they recorded a public meeting. One do I have the right to be able to ask for a CD of the meeting? And if so do I just submit a public records request to the county office for that? Would that be the county office that held the meeting or the clerks office or is it different by every county and you recommend I contact them?
