																			Patagonia/Sonota/¿tigin is a unique community which over the years has become home to all manner of social, environmental and artistic efforts. It is unique among the smaller Artizona communities and its efforts have been supplemented and supported by Santa Cruz County, bein it nems of preserving its natural charm, and resting efforts to exploit on local resources for commercial gain. The same is not true of Cochise County While the benefits of a merger with Cochise and Santa Cruz counties remain elusive and unproven, the downside is clear and immediate. Their interests are not our interests - and I urgo you to and so the same is not true of Cochise County.

Now are a "symple" state. Our datenade of Riskala demonstrate this -about half or Democrat and half are Republican. In the last two presidential decision, we decised one Republican and one Domicant. Con regulatance reflects this -asplete the fact that multiple current districts are not competitive for reasons often than WK compliance: the Regulation is nearly regularly updit. About a third of our regulated volves identify as independent.	202108111649 0.006500283799 0.3893386209 8/11/2123:50	8/11/21 23:50	0	85013-4019

Arizona is a "purple state" and its districts should reflect the same. City I live in the city of Tucson, in the middle of Midtown in the Palo Verde neighborhood. Almost half of my neighborhood is connected to the University of Arizona, either as employees or students. We have almost nothing in common with the communities to the north of River Road.	The congressional district should be redrawn to keep the City of Tucson together to keep our community whole. The City of Tucson should be in one or two legislative districts, at least the heart of the City should ke. There are enough saues in the City to deal with without compounding our district with the needs of communities that lay outside. 																				The City of Tuccon was split into two Congressional Districts during the last redistricting. If m in 2, but only blocks from CD3, which induces the University of Arizona, which whated to daily when I was working there. The City of Tucson needs to be represented by one Congressional District and not split into hwo of that our community interests can be represented as a whole. An neighborhood is far more impacted by what gees on with the UofA, Banner, 4th Avenue and Downtown than it is by Cochise County or even the east side of Tucson.
